

What went well?

What should we keep doing?
What should we celebrate?
Where did we make progress?

What went poorly?

Where did we have problems?
What was frustrating to us or others?
What held us back?

India's Agricultural crop Production

Agriculture careers are professional paths related to farming, dairy, poultry and animal husbandry. These career paths involve everything from growing crops and nurturing the soil to raising livestock like cattle, pigs and chickens.

Good harvest festivals are celebrated throughout the country like the festival of Rongali Bihu in Assam, Nabanna in Bengal, Baisakhi in Punjab, Onam in Kerala and Pongal in Tamil Nadu. In some festivals bulls are honoured since they are indispensable to farming like the Pola festival of South India.

Efficient markets.
Irrigation augmentation and management.
Agri-credit and crop insurance.
Adoption of new technologies.
Enhancement of soil quality

For the purposes of the agricultural census, an agricultural holding is defined as a production unit fulfilling the following three criteria : it produces agricultural products ; its day-to-day management is independent ; it is above a certain threshold in terms of surface area, production or number of animals.

Small and Fragmented land holdings: ...
Lack of Marketing and Storage facilities: ...
Poor Adoption of Mechanization: ...
Credit Availability: ...
Poor irrigation facilities. ...
Soil fertility depletion. ...
Inadequate access to crop insurance schemes.

For the purposes of the agricultural census, an agricultural holding is defined as a production unit fulfilling the following three criteria : it produces agricultural products ; its day-to-day management is independent ; it is above a certain threshold in terms of surface area, production or number of animals.

Owing to various advantages such as fertile soil, favourable climatic conditions, rich biodiversity etc, Assam has immense untapped potential in the agriculture sector waiting to be utilised. Assam produces both food and cash crops

The trend of rising agriculture productivity and falling labor participation is expected to continue. Overall employment in agriculture is projected to increase only two percent from 2020 to 2030, but agricultural equipment operators are projected to increase 13% during this same time period.

Implementation of land reforms.
Land reforms are the first and most important point for improving productivity. ...
Interplant. ...
Plant more densely. ...
Manuring. ...
Plant many crops. ...
Water use and soil management. ...
Sustainable agriculture. ...
Raised beds.

Agricultural activities are defined as income-producing activities or uses that are characterised by the crop cultivation, not all of which are restricted to floral, fruits and veggies, vegetation, graze, and wood; and farming or raising livestock activities or uses that are connected to livestock farming, fish farming ...

I believe in the future of agriculture, with a faith born not of words but of deeds – achievements won by the present and past generations of agriculturists; in the promise of better days through better ways, even as the better things we now enjoy have come to us from the struggles of former years.

What ideas do you have?

What ideas do you have for future work together?
Where do you see opportunities to improve?
What has untapped potential?

How should we take action?

What do you believe we should do next?
What specific things should we change?
What should extend beyond this meeting?
